Social Entrepreneurship MBA  
Master of Science in Info. MGT.  
Executive MBA  
Professional MBA

## Techno-MBA

Initiated in March 1995, the two year full-time Techno-MBA was the first MBA program in Korea. The school has the longest MBA history and the largest MBA alumni network in Korea, and boasts of a world class team of professors with a stellar reputation for academic excellence, supported by student achievements and staff accountability. The program offers rigorous academic and applied courses along with extensive international exposure and a number of specialized concentration areas. Upon graduation, an MBA degree is offered with up to two certificates of concentration.

## IMBA

“I” for IMBA represents “Innovation”, “Ingenuity”, “Inspiration”, “Integrity”, and “Internationalization”. This intensive 1 year full time general MBA program trains students to think outside the box to infuse them with an entrepreneurial and innovative mind-set. With integrated practice oriented teaching methods, IMBA aims to cultivate future CEOs and company executives in various sectors of industry.

## Finance MBA

KAIST College of Business offers a two-year Finance MBA Program that is designed to help students prepare for their future careers in the global investment banking and asset management industries. KAIST started to offer this unique Finance MBA Program in 2006, and over 700 graduates are currently working in major Korea and global financial institutions. For those who are interested in pursuing careers in the emerging Green/ Carbon Finance area, the program also offers a track in this area. To enhance global competitiveness, students are required to undertake one semester of overseas study.

## Master of Financial Engineering

KAIST Master of Financial Engineering Program has a specialized curriculum for global finance specialist training. KAIST College of Business is well known for Korea’s largest in-school finance training facility and financial information database.

## Information & Media MBA

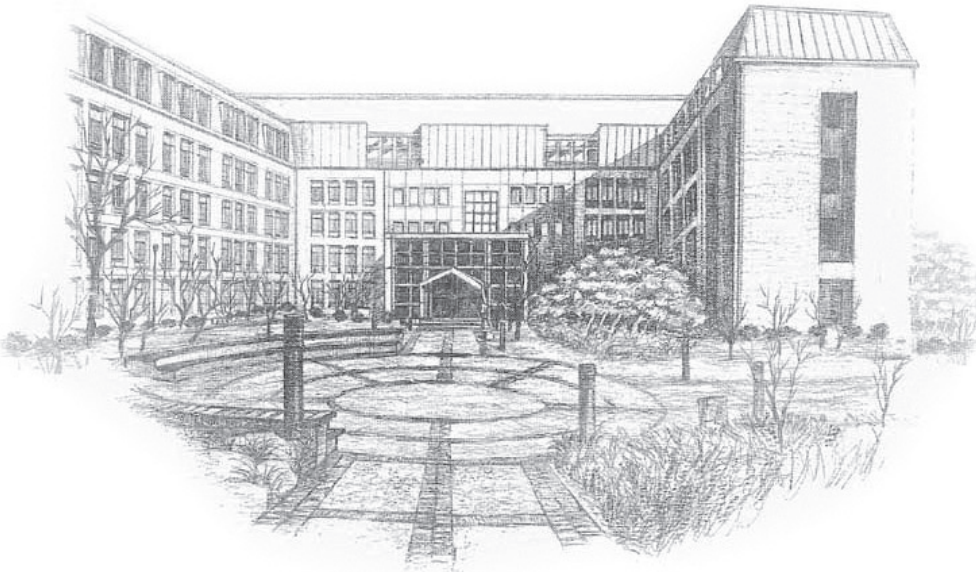

The program is a 1 year full-time MBA aimed to provide management education specialized in the IT/Broadcasting/Telecom/Media/Content convergence industry. Therefore, the curriculum is focused not only on general management training, but also on courses related to the recent trends, industry and technology of IT media. In particular, the program consists of courses in management & marketing strategy related to the changes of platforms & networks, the appearance of smart devices, vitalization of social media, and changes in the smart business environment under the circumstance of the rapidly changing trends of entertainment and media contents.

## Social Entrepreneurship MBA

The SE MBA Program is a premier MBA program to foster innovative social entrepreneurs and social value creation. The SE MBA Program begins in 2013 Spring Semester. Topics include Social Enterprises and Management, Social Venture Creation, Internships & Field Study, and traditional MBA subjects.

## Master of Science in Information Management

The MS in Information Management Program aims to foster professionals with knowledge of IT technology and with insight into the IT industry by providing education for those who desire self-improvement but have difficulties enrolling in a full-time degree program. KAIST MS in Information Management is a two-year part-time master program to help students become IT management professionals. This program requires 39 credits in four semesters.
