Foundation Principles

Our goal is to explore and systematize the profound principles of our nation's traditional medicine, promote it as national medicine, foster its practicality and modernization, and further contribute to public health through the expansion of medical care. Concurrently, as Korean medicine is increasingly gaining global recognition, we aim to cultivate professionals who can play a leading role in enhancing our national prestige on the international stage. This is all part of our grand plan to support our nation's imports and exports, drive regional development, ensure national prosperity, and contribute to the welfare of humanity worldwide.

Educational Philosophy

- Reflecting the needs of the times through innovative academic exploration
- Pioneering the era of Oriental Wellness through knowledge development
- Cultivating talents that contribute to community development and national prosperity

- ◇◇ Selected for the High School Education Contribution University Support Project for five consecutive years
- ◇◇ Selected for the National Service Award in the Cosmedical Industry Division for the University Division for three consecutive years

Communication Education For the Global Age

President's Message

Cultivating Healthy Talents!

Welcome, everyone, to Daegu Haany University.

Daegu Haany University has inherited the educational philosophy of modernizing and globalizing traditional Korean medicine and will manage the university by advancing cutting-edge academics and global talent cultivation for national development.

Our university aims to play a leading role regionally, nationally, and globally in the era of the 4th Industrial Revolution. Today's academia demands a new paradigm in education that requires change and innovation. We have elevated the quality of education through continuous innovative education. These efforts are recognized as leading institutions in university education, evidenced by remarkable results in recent government-funded projects.

We've been selected for various projects such as the Industry-Academia Collaboration Leading University Cultivation Project (LINC3.0), University Innovation Support Project (including PILOT project), Industry-linked Education Activation Leading University Project (PRIME), University Humanities Capability Enhancement Project (CORE), Regional University Specialization Project (CK), University Lifelong Education System Support Project (LiFE), K-MOOC Leading University Project, Industrial Complex Campus Creation Project, High School Education Contribution University Support Project, and International Collaboration Leading University Cultivation Support Project, achieving the unparalleled honor of being selected for ten unique projects.

Furthermore, our specialized talent cultivation systems are manifested through programs such as On-Site Practical Ability Education (OLE), DNeA, which integrates curricular and extracurricular activities, and the Quadruple Helix innovative education program. Based on these achievements and educational programs, our university will focus on specialized and advanced education to nurture experts, support startups and employment, and establish regional innovation platforms.

Daegu Haany University will continue to take the lead in fostering innovative talents that can satisfy students, local communities, and national needs by continuously developing and operating innovative educational programs. Moreover, our university, in collaboration with the community, will strive to become one of the leading universities in Asia.

Please continue to verify the development and future vision of Daegu Haany University, and we ask for your ongoing support. Thank you.

President of Daegu Haany University, Ph.D. in Engineering,

Byeon Chang-hoon 

Daegu Haany University Vision

2023+

We are strengthening the university's specialization and campus capability and fostering field-practical talents linked with employment. A pioneering university in the globalization of the Hallyu through integrated healing professional training over the life cycle, experience in Korean medicine tourism, and acting as a global leader in the Korean medicine industry! Daegu Haany University.

A Significant Step towards the World, Cultivating Global Talents at **Daegu Haany University** **3 Campuses**

All three campuses possess their unique competitive edge and charm.

The dawn of a new, innovative era with multiple campuses.

Samsung Campus

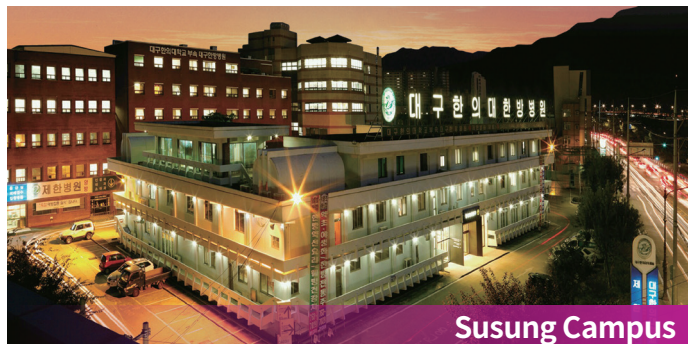

Located in Gyeongsan, the homeland of Samsunghyeon, where nature thrives, the Samsung Campus is the core campus of Daegu Haany University and boasts a pleasant and beautiful educational environment. It offers abundant amenities that satisfy students and embrace the features of a state-of-the-art, digitalized campus.

Samsung Campus

Susung Campus

A specialized campus that cultivates exceptional professionals in Korean medicine and nursing, responding to the demand for Korean medical personnel. Integrating medical research and clinical functions connected with the local community and constructing Korean medicine infrastructure is pivotal in advancing the nation and local communities.

Susung Campus

Osung Campus

Osung Campus is a specialized campus expected to nurture the future leaders of the Korean medicine industry and take on a central role in propelling our country's Korean medicine sector. There's anticipated synergy with the forthcoming R&D research special zone in the background. It is densely populated with Korean medicine-related faculties and research institutes for high-quality education benefits.

Osung Campus

GLOBAL DHU

Various internationalization programs are prepared to nurture international sensibilities and cultivate global talents.

COLLEGE OF KOREAN MEDICINE

Daegu Haany University was founded in 1981 to 'creatively inherit and advance ethnic medicine,' building on the 350-year-old tradition of the Daegu medicine market and the excellent infrastructure of traditional Korean medicine in Daegu and Gyeongbuk. It has been cultivating outstanding Korean medicine doctors ever since.

Department of Korean Medicine

Cultivating Korean medicine doctors with professional clinical capabilities based on traditional medicine and life sciences knowledge! Accredited by the Institute of Korean Medicine Education and Evaluation's certification program.

- Daegu and Gyeongbuk are the country's leading herbal medicine production areas, with well-established foundational facilities related to Korean medicine, such as the 350-year-old medicine market.
- Actively researching to scientifically verify and modernize the effects of Korean medicine, meeting the demands of this rapidly changing era.
- Following the curriculum certified by the Institute of Korean Medicine Education and Evaluation, students learn the fundamental theories and practices of Korean medicine and medicine, clinical theories, and practical courses to become Korean medicine doctors with a deep understanding of the human body.
- Korean medicine doctors who inherit the ethos of ethnic medicine and possess the professional clinical capabilities to contribute to the health and welfare of humanity.

Career Paths After Graduation

- 1) **Education & Research** : Korea Institute of Oriental Medicine, universities, and research institutes affiliated with Korean medicine-related companies.
- 2) **Clinical Field** : General practitioner, specialist, internationally dispatched Korean medicine doctor.
- 3) **Health Administration** : Ministry of Health and Welfare, Food and Drug Administration, public health centers, public health Korean medicine doctors.
- 4) **Others** : Military officers in traditional Korean medicine.

Department of Nursing

Cultivating professional nurses contributing to community and national development! Certified by the Korean Nursing Education Accreditation Board's Nursing Education Accreditation Program.

- Opportunities for diverse nursing career paths considering individual aptitudes.
- Enhancing job competencies through both academic and extracurricular program support.
- Offering successful employment strategies through various employment capability enhancement programs.
- Incorporating Eastern and Western perspectives on humanity and health into nursing education and practice.
- Recognized as the region's top nursing education institution, leading in advancing community nursing.
- Fostering comprehensive nursing talents through systematic, scientific, theoretical education and practical clinical training.

Career Paths After Graduation

- 1) **Nurse/Specialized Nurse** : University Hospitals and General Hospitals.
- 2) **Health Educator/Public Official (Job)/Health Educator/University Professor** : Schools (Elementary, Middle, High), Public Health Centers, dedicated public health officials, National Health Insurance Corporation, Occupational Safety and Health Agency, Health Insurance Review & Assessment Service, National Health Policy Institutions, Correctional Public Officials, Firefighters, University Professors, etc.
- 3) **Maternity Nurse**: Hospitals, Maternity Clinics, Postpartum Care Centers.
- 4) **Overseas Employment & Study Abroad** : USA, UK, Canada, Australia, etc.
- 5) **Others** : Flight Nurse, Forensic Nurse, Medical Litigation Manager, Insurance Review Nurse, Military Nurse, Hospital Coordinator, Organ Transplant Coordinator, Company Nurse, Care Facilities, Childcare Facilities, Social Welfare Organizations, etc.

COLLEGE OF FUTURE LIFE CONVERGENCE

In line with the Ministry of Education's policy promoting employment first, followed by education, a degree college program is established to cultivate experts in various disciplines equipped with professional skills and academic expertise.

Major in Lifelong Education and Welfare

The era of lifelong learning! Training educators, counseling specialists, and lifelong education professionals.

Vision

Bachelor's in Lifelong Education Convergence, Graduate school (Masters & Ph.D.) admission, lifelong education professional educators and lecturers, and experts in education and counseling for adults, multicultural, elderly, occupational transitions, etc.

Relevant Certifications

Lifelong Educator, Health Family Advocate, Social Worker, Youth Counselor, School Violence Counselor, Mind Care, Cognitive Learning Instructor, Filial Piety Instructor, Stretching Coaching, Creativity Instructor, etc.

Major in Lifelong Education Management

The era of lifelong learning! Training managerial talents and entrepreneurs for lifelong education institutions.

Vision

Bachelors in Lifelong Education Management, Graduate school (Masters & Ph.D.) admission, lifelong education institution management & solo entrepreneurship, and careers in lifelong education centers and related facilities.

Relevant Certifications

Lifelong Educator, Business Mentor, Social Worker, Youth Mentor, Business Diagnosis Expert, HRD Specialist, SMAT (Service Management Qualification), Safety Coaching, etc.

Department of Medi-Food HMR Industry

Cultivating talents for the food industry, delivering healthy lives through food.

Career Paths After Graduation

Medi-Food HMR Menu Development Specialist, Medi-Food HMR Beverage and Dining Specialist, Food-related Companies and Health Supplement Firms, Solo Entrepreneurs, Dessert Café Establishment and Management, Customized job transition in the Medi-Food HMR industry, Overseas employment in Medi-Food HMR.

Relevant Certifications

HMR Product Developer 1st & 2nd grade, Medi-Food Menu Developer, Dining Establishment Management Specialist, Café Management Specialist, Coffee Barista, Handcrafted Beer Brewer, Wine Sommelier, Cocktail Mixologist, Beverage Technician, Sanitarian, Food Processing Technician, etc.

Department of Forest Business

Acquisition of National Technical Qualification (Landscape Technician) through Course Evaluation, Training of forest business professionals leading the promotion of the forestry industry.

Career Paths After Graduation

Landscape Technician (Course Evaluation Type), Forestry Technician, Land Surveying Technician, Ecological Restoration Technician, Arborist, 1st and 2nd Class Forest Therapy Guide, Forest Interpreter, Forest Guide for Children, Forest Trail Hiking Guide, etc.

Relevant Qualifications

1st and 2nd Class National Qualification as Forest Therapy Guide, Forest Interpreter, Forest Guide for Children, Forest Trail Guide, Tree Treatment Technician, Landscape Technician, Forestry Technician, Ecological Restoration Technician, Tree Protection Technician, etc.

Department of Herbal Medicine Development

Cultivating experts with specialized knowledge and skills in herbal medicine and medicinal resources for the well-being era.

Vision

Wholesale of herbal medicine, establishment and management of enterprises handling medicinal herbs / Admission to graduate school (Masters and Ph.D.) in Herbal Medicine Development / Experts in production, processing, and distribution of medicinal herbs and special crops / Development of health foods, cosmetics, and everyday products utilizing therapeutic resources / Consulting activities for the development of products related to herbal resources and traditional medicine.

Relevant Qualifications

Herbal Medicine Wholesale Business Manager, Public Health Officer, Customized Cosmetic Formulation Manager, 2nd Class Forest Therapist, Distribution Manager, Agricultural Product Quality Technician, Medicinal Plant Manager, Herb Aromatherapist, Medicinal Tea Sommelier, Health Food Manager, Herbal Interpreter, etc.

Cheongdo Human Resource Development Department

HRD specialists for tailored talent development in the era of the 4th Industrial Revolution.

Vision

Literature Specialist / Lifelong Education Expert / HRD Expert / Community Development Specialist.

Relevant Qualifications

Lifelong Education Specialist, Life Planning Specialist, HRD Expert, Community Development Specialist.

COLLEGE OF K-BIO HEALTH

In line with the distinct characteristics of our university and the community's needs, we optimize and produce professionals specialized in cosmetics, pharmaceuticals, and bio-material sectors. Our mission is to contribute to the continuous improvement of public health, enhance human beauty, promote health, and elevate the quality of the medical industry.

Department of Physical Therapy

The program trains physical therapists to diagnose, evaluate, and treat patients or individuals with disabilities by utilizing exercise therapy and advanced physical therapy equipment, especially for those whose bodily functions have been lost or reduced due to diseases or injuries.

Relevant Certifications

Physical Therapist License

Department of Clinical Pathology

This interdisciplinary program merges core diagnostic medical testing and bio-medical sciences to provide essential medical information, which plays a critical role in disease diagnosis, treatment progression, prognosis, and direction of treatment.

Relevant Certifications

Clinical Pathologist, Cytopathologist, Radioisotope Handler License, ASCPi (American Society for Clinical Pathology International - U.S. Clinical Pathologist Certification)

Department of Companion Animal Health

An educational curriculum dedicated to training veterinarians (national certification), laboratory animal technologists, life science researchers, and pet experts.

Relevant Certifications

Veterinarian, Laboratory Animal Technologist, Traditional Medicine Animal Trainer, Pet Care Specialist, Animal Behavior Consultant, Dog Groomer, Dog Trainer, Animal Rehabilitation Therapist, Pet Coordinator, 1st and 2nd Class Pet Food Instructor, Pet Nutrition Instructor, Pet Nutrition Manager, Handmade Pet Snack Expert, Pet Bakery Expert, Natural Pet Food Manager, etc.

Department of Cosmetology

A department participating in the leading university development project for academia-industry collaboration (LINC 3.0) and the leading university activation project for the cosmetics-pharmaceutical bio-industry (PRIME).

Relevant Certifications

Customized Cosmetics Formulator, Cosmetics Manufacturing and Sales Manager, Cosmetics Quality Evaluator, Industrial Quality Manager, Quality Control Technologist, Colorist, Perfumer, and Aromatherapist

K-Beauty Business Department

A curriculum centered around hands-on training specializing in K-Beauty business and marketing problem-solving.

Relevant Certifications

Customized Cosmetics Manufacturing Manager, Cosmetics Manufacturing and Sales Manager, Cosmetics-related Certifications, Beauty Specialist Certifications, and Business and Economics-related Certifications.

Beauty Care Department

Covering skin aesthetics, makeup design, nail care, hair design, scalp and hair care, special makeup, aromatherapy, and other beauty sectors.

Relevant Certifications

Middle and High School Official Teacher Certification, National Cosmetologist License for all graduates, National Technical Cosmetologist (General/Skin/Nail/Makeup), Hospital Coordinator, Trichologist, Performance Art Makeup Artist, Broadcast Makeup Artist, Stage Makeup Artist, Beauty Illustrator, Wedding Stylist, CIDESCO International Skin Care Certification, International Aromatherapist, Colorist, National Custom Cosmetics Formulator, etc.

Department of Rehabilitation Therapy

Training practical experts who will lead the rehabilitation therapy sector by addressing the causes of functional disabilities and clinical rehabilitation methods.

Relevant Certifications

Rehabilitation Healthcare Specialist, 1st Class Senior Cognitive Rehabilitation, Rehabilitation Pilates Instructor, 1st Class Rehabilitation Trainer, Prosthetics Technician and Industrial Technician, Medical Device Regulatory Science Specialist (RA), and Assistive Technologist.

Major in Healthcare Administration

Training hospital administration experts and public health professionals responsible for the health and well-being of patients and citizens.

Relevant Certifications

Hospital Administrator, Medical Insurer, Insurance Assessment and Evaluation Expert, Hospital Coordinator, Hospital Computerized Accounting, Social Survey Analyst, Health Educator, Sanitary Manager

Major in Occupational Safety and Health

Training specialists responsible for the safety and health of workers.

Relevant Certifications

Industrial Safety Engineer, Laboratory Safety Manager [New], Construction Safety Engineer, Fire Safety Engineer, Occupational Health Supervisor (Hospital Startup), Occupational Hygiene Management Engineer, Ergonomics Engineer, and Environmental Hazard Management Engineer.

Art Therapy Psychology Department

Training creative and integrated art therapy psychology experts responsible for citizens' mental health and psychological rehabilitation.

Relevant Certifications

Clinical Art Psychologist, Cognitive Learning Counselor, Color Psychology Counselor, Cognitive Rehabilitation Psychologist, Food Art Psychology Counselor, After-school Instructor, Youth Counselor, Clinical Psychologist, Social Worker, Lifelong Educator, etc.

COLLEGE OF HEALTH AND WELFARE

At Daegu Haany University's College of Health and Welfare, we aim to cultivate global talents grounded in traditional culture, ready to step into the world. We aim to adapt to an ever-changing era and provide diversified vocational training across various fields, producing true professionals active in multiple societal sectors.

Major in Total Beauty

Emphasis on lifelong beauty education, fostering professionals across various beauty sectors.

Relevant Certifications

Licenses in skincare, hair, nails, makeup, etc.

Major in Social Welfare Management

Training specialists in social welfare management to realize social welfare and societal values.

Relevant Certifications

Social Worker (2nd Class), Senior Welfare Professional, Lifelong Educator, Caregiver, Health Manager, Business Consultant, Consumer Specialist Counselor, SMAT, Distribution Manager, Senior Welfare Specialist, Cognitive Care Memory Trainer, Sports Welfare Specialist, 1st Class Recreational Sports Instructor (Park Golf), etc.

Major in Sports Management

Training specialized sports managers to create societal value and build a healthier society.

Relevant Certifications

Social Worker (2nd Class), Lifelong Educator, Drone Operator (3rd Class), Senior Sports Instructor, Light UAV Multi-copter Operator (Low-risk Unmanned Aircraft), Business Consultant, SMAT, Distribution Manager, 1st Class Recreational Sports Instructor (Park Golf), Cognitive Care Memory Trainer, Sports Welfare Specialist, Project Manager, Sports Event Manager, Sports Manager, Convention Planner, etc.

Department of Real Estate Development

Producing professionals specialized in real estate (brokerage, auction, consulting, etc.) through comprehensive education.

Relevant Certifications

Certified Real Estate Agent, Housing Manager, Appraisal Specialist, Asset Manager, Investment Advisor, Building Management Professional, Real Estate Rights Analyst, etc.

Major in Self-management Health

Training holistic health experts in response to contemporary demands.

Relevant Certifications

International Self-management Certification, 1st and 2nd Class Self-management Trainer, Lifelong Educator.

Major in Korean Medicine Wellness Business Management

Fostering creative, innovative talents of Global Wellness Business Managers, leading the era of the integrated traditional wellness industry, focusing on the future growth industries.

Relevant Certifications

Opportunities to acquire various qualifications for wellness industry management, such as food, medicinal herbs, healing, rehabilitation, welfare, management, beauty, and education, linked with national institutions, universities, associations, and the Korea Research Institute for Vocational Education and Training.

Department of Food Care and Medicinal Cuisine

In an age where medicinal food resources are essential, training creative professionals merging the past, present, and future food revolutions: Global Medicinal Cuisine Food Leaders.

Relevant Certifications

Medicinal Chef, 1st and 2nd Class Medicinal Food Designer, Medicinal Food Specialist, Medicinal Tea Expert, Vegetarian Cooking Instructor, Medicinal Pastry Chef, Healing Food Instructor, Flower Tea Sommelier, Children's Cooking Instructor, Industry-tailored Medicinal Cooking Expert, Cooking Technician and Industrial Cooking Specialist.

Department of Healing Industry

The Department of Healing Industry certifies and guarantees students' abilities upon their societal debut. Operates elective courses tailored to students' career goals, such as healing techniques and healing space planning.

Offers practical training to acquire advantageous qualifications applicable in the field.

Relevant Certifications

Healing Agriculture Specialist, Forest Therapy Guide, Urban Agriculture Manager, and National Qualifications such as Knife Therapy, Aromatherapist (UK), Nepal Healing Singing Bowl Therapist, and Korean Body Healing Qualification.

Department of Community Entrepreneurship

Instilling foundational knowledge on entrepreneurship and practical knowledge essential for business operations.

In association with various in-campus entrepreneurship education programs, we support successful employment, self-employment, and business ventures, nurturing entrepreneurs or entrepreneurship trainers with an entrepreneurial spirit and initiative.

Relevant Certifications

Entrepreneurship Trainer, Business Incubation Manager, Technical Credit Evaluator, Safe Business Manager, Business Consultant, and Technical Consultant.

Department of Human Detoxification and Biotechnology

Cultivating creative professionals for high-value product development and quality management. Training specialized personnel for disease prevention and treatment through functional health food research. Fostering experts in health recovery through human detoxification.

Relevant Certifications

Food Technician, Food Industrial Technician, Sanitarian, Quality Control Technician, Pastry and Baking Technician, Brewer, etc.

COLLEGE OF K-WELLNESS

To more smoothly carry out practical education focused on real-world applications, we operate two educational programs under the auspices of the Ministry of Education and actively participate in the IPP-type Work-Learn Parallel System overseen by the Ministry of Employment and Labor, enhancing the perfection of on-site practical education.

Department of Traditional Sports Medicine

Training specialists in sports medicine with an integration of traditional Korean and Western approaches, nurturing nationally recognized experts.

Relevant Certifications

2nd Class Sports Instructor for Various Sports, Health Exercise Manager, First Aid and CPR Instructor, Athlete Trainer, and Other Sports-related Certifications.

Department of Hotel, Dining, and Bakery Studies

Cultivating global innovative talents to lead the hotel, dining, and bakery industries in the age of the fourth industrial revolution! Cooking the world with Food + Care + Art!

Relevant Certifications

Secondary School Teacher Certificate (Cooking, 2nd Class), Culinary Industry Technician and Culinary Technician, Western Cuisine L4, Confectionery, Bread-making Technician, Alcoholic Beverage Sanitarian, Coffee Barista, Wine Sommelier, Flower Tea Expert, Dining Management Instructor, etc.

Department of Police Administration

The mecca of South Korean police training.

Career Paths After Graduation

Police Officer Candidate (Lieutenant), Patrol Officer (Public and Special Recruitment), 101st Security Detachment / Prosecutor, Narcotics Investigator, Court Administration, Correctional Institutions, Probation Office / Customs, Immigration Administration / Presidential Security Service, National Intelligence Service, Military Investigative Agency / National Civil Service, Administrative Service / ROTC (Military Officer).

Department of Fire Safety and Environment

Leading national safety in the 21st century by fostering fire department officials and experts in fire, industrial, construction, and environmental safety. A recognized department for special recruitment qualifications for firefighters.

Relevant Certifications

Fire Equipment Technician (Mechanical, Electrical), Hazardous Materials Industry Technician, Industrial Safety Technician, Construction Safety Technician, Gas Technician, Water Quality Environmental Technician, Atmospheric Environmental Technician, Waste Treatment Technician, etc.

Major in Counseling Psychology

Training counseling psychology experts to prevent and treat mental ailments aims to foster professionals in psychological therapy, implementing innovative, practice-centered curricula.

Relevant Certifications

2nd Class Clinical Mental Health Counselor, 3rd Class Youth Counselor, 2nd Class Vocational Counselor, 2nd Class Rehabilitation Psychotherapist, Addiction Psychologist, Play Therapist, Art Therapist, Behavioral Therapist, Bibliotherapy Counselor, Youth Counselor, etc.

Secondary Special Education Department

Leading the future education society by fostering special education teachers.

Relevant Certifications

Secondary Special Education Teacher (2nd Class), Nationally Certified Sign Language Interpreter, Nationally Certified Braille Proofreader, 2nd Class Lifelong Education Specialist, Cognitive Learning Instructor, School Violence Counselor, Applied Behavior Analysis Technician, etc.

Interior Architecture Design Department

A cradle of designers creating new interior spaces.

Career Paths After Graduation

Interior Design, Design product planning in industrial design-related enterprises, employment in lighting design fields / Employment in planning and design sectors of prestigious domestic construction companies / Further studies and research in diverse fields of graduate schools.

Major in Child Welfare Counseling

Training experts in child welfare, counseling, infant care, and education.

Relevant Certifications

2nd Class Social Worker, 2nd Class Childcare Teacher, 2nd Class Kindergarten Teacher, Healthy Family Specialist, Child Psychological Counselor, Play Psychological Counselor, Storytelling Instructor, Laughter Healing Therapist, Infant Physical Education Instructor, etc.

Youth Education Counseling Major

Training leaders with specialized knowledge and skills in youth guidance, counseling, and welfare.

Relevant Certifications

Youth Guidance / Counselor, Specialist Counseling Teacher, Social Worker, Recreation, First Aid, various counseling qualifications, 2nd Class Youth Guidance Specialist, 3rd Class Youth Counselor, 2nd Class Specialist Counseling Teacher, 1st and 2nd Class Social Worker, etc.

Department of Software

Training practical integration-type software experts capable of creating new values and services.

Relevant Certifications

Information Processing Technician, Embedded System Engineer, 2nd Class Network Manager, OCJP, OCP, ICDDL, Coding Specialist, CDT, CLA, etc.

Department of Physical Education

Training competent leaders who will take responsibility for the health of the citizens in the 21st century and lead the future sports world.

Relevant Certifications

1st and 2nd Class Elderly/Professional Sports Instructor, Health Exercise Manager, 1st and 2nd Class Lifestyle Sports Instructor, Youth Sports Instructor, 1st and 2nd Class Disabled Sports Instructor, Sports Management Administrator, Referees and Coaching Certifications for Various Sports Disciplines.

DHU GRADUATE SCHOOL

Through profound academic research, we uncover the truths deep within human nature and offer directions for a life of richness and meaningful value through meticulous examinations of various societal phenomena and Korean medicine.

General Graduate School

We research profound theories and application methods of Korean medicine, laying the foundation for its unique development as a national medicine. We study deep theories and application methods in various academic fields, cultivating creativity, leadership, and morality. Our educational aim is to contribute to the cultural advancement of local and global societies.

Graduate School of Health and Welfare

Following Seoul National University, Yonsei University, and Kyungpook National University, Daegu Haany University has offered specialized health education since 1988. We have produced many graduates over the years who play significant roles in academia, government, and health-related institutions abroad. In 2015, we renamed our School of Health and School of Social Development to the Graduate School of Health and Welfare. Our faculty is committed to nurturing the talent needed for academia and practical fields in the 21st century.

Master's Program

Humanities and Social Sciences : Social Welfare (with a major in Social Welfare), Geomancy Geography & Tourism (with majors in Geomancy Geography and Tourism), Police Administration (major in Police Administration), Youth Counseling (major in Youth Counseling)
 Natural Sciences : Public Health (with majors in Public Health, Beauty and Health, Industrial Safety, and Health, Elderly Health and Welfare), Art Psychotherapy (major in Art Psychotherapy), Hanyang Way Sports Health Management (major in Hanyang Way Sports Health Management), Food Nutrition (major in Food Nutrition), Marine Education Cultural Specialization (major in Marine Culture), Medi-Food HMR Industry (major in Medi-Food HMR Industry)
 Engineering : Rehabilitation Medical Engineering (major in Rehabilitation Medical Engineering)

Graduate School of Korean Medicine Industry

We focus on fostering high-level managers in the oriental industry, an area gaining attention as the essence of the bio-industry, and emphasize training experts in environmentally friendly industries using natural oriental resources.

Master's Program

Humanities and Social Sciences : Tea Business Industry
 Natural Sciences : Korean Medicine Industry (with majors in Korean Medicine Skin Beauty, Herbal Pharmacology, Human Purification, and Life Engineering)

In the finest environment
and with solid support,
elevate the height of dreams.

RESEARCH INSTITUTION

Jaehan Medical Science Institute

Through specialized research in traditional medicine's fundamentals and clinical areas, we aim to improve medical education and advance Korean medicine. Simultaneously, we encourage interdisciplinary research centered on traditional medicine and engage research faculty from each field to lay the groundwork for the regional herbal bio-industry, serving as the core of academic research functions.

Institute of Oriental Medicine Industry

Established to promote active engagement in functional herbal bio-research projects and, based on this, to strengthen network ties with local industries through the development of valuable life resources and technical support, ultimately elevating the stature of the College of Herbal Industry.

Hyangsan Institute

In response to the 4th industrial revolution and anticipation of societal needs, we've established this institute with a proactive approach to general education operations, accumulation of knowledge in general education, and practical activities, all with the goal of stable and sustainable research in general education.

Institute of International Culture

We were founded to base research on international languages and cultures, including English, Chinese, Japanese, Korean, and traditional Korean culture. We aim to enhance academic and cultural exchanges and cooperation with countries worldwide, stimulating the vitality of related academic disciplines and contributing to cultural development.

Industrial Management Research Institute

We were founded to contribute to the development of local communities through research and collaboration on issues related to the growth of local industries.

Understanding the depth of scholarship and pioneering a new future through in-depth research, the light of Daegu Haany University filled with research and passion never dims. Specialists from various fields will illuminate our university's future with expert research and passion.

Institute of Basic Science

Our objective is to foster the advancement of basic sciences by conducting research related to basic science and its associated applied sciences.

Institute of Adolescent Problem

Recognizing the seriousness of youth issues in our society today, this institute was established to scientifically and systematically study youths' behaviors, thoughts, culture, and policies. Through seminars and debates, we aim to support and facilitate young people's healthy growth and social adaptation.

Institute of Industrial Health

This institute focuses on academic research related to industrial health and environmental health. Grounded in the Industrial Safety and Health Act, we conduct workplace environment measurements, asbestos surveys, musculoskeletal burden work hazard investigations, and indoor air quality measurements in multi-use facilities as per the Indoor Air Quality Management Act. Furthermore, we provide field training opportunities for students to improve employment rates.

Institute of Construction System

Through information accumulation and ongoing research in areas such as living environments, spatial planning, new construction technologies, structures, materials, and energy utilization, we aim to advance construction-related technology and enhance the quality of living environments.

Institute of Digital Culture Contents Development

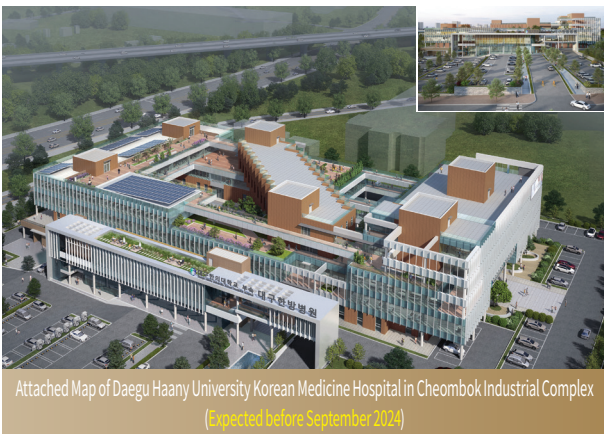

The 21st century is the century of culture. Many phenomena are now interpreted culturally, producing a multicultural understanding. The technological progress made in the information and communication fields thus far further accelerates this trend.

With the pride of tradition,
Through the advancement of
medical care, Leading the
globalization of Korean medicine,
MEDICAL CENTER

Daegu Haany University Medical Center has signed hospital designation agreements with companies such as the Daegu Chamber of Commerce and Industry, Gyeongbuk Taejin Office, Gumi Samsung Electronics, Hynix, and POSCO to promote the health of local workers. For a long time, it has been conducting traditional Korean medicine health check-ups for Hyundai Motor workers and has received significant acclaim.

Daegu Haany University's Affiliated Korean Medicine Hospital

As a flagship university hospital for Korean medicine in Daegu, it not only serves the residents but also boasts facilities for students' education and a specialized institute for research in basic and clinical fields of Korean medicine. It also features a specialized center of Gyeongbuk Technopark for the joint development of new technologies and products with industry-academia collaboration.

Affiliated Pohang Korean Medicine Hospital

To expand medical services in the Gyeongbuk and East Sea regions, eight specialized departments, including a stroke clinic, have been established. It emphasizes patient-centered care and is designed with a traditional Hanok interior and a homely ambiance. The hospital has also been designated for the "Health Tour to Korea" initiative led by the Ministry of Health and Welfare and the Ministry of Culture and Tourism.

Daegu Haany University operates various affiliated institutions to strengthen the research and development capabilities of the university and realize students' academic curiosity. A cooperative network with industries is established to solidify the practical foundation of Daegu Haany University members. Each institution is equipped with state-of-the-art facilities and diverse programs, serving as a foundation for efficient and extensive university life.

FACILITIES

Lifelong Education Center

With a commitment to enhancing the living standards of the local community and contributing to national and societal progress, the center plays its role as an open university, actively interacting with the local community through diverse educational programs and courses related to hobbies. Education in traditional Korean studies, Korean medicine, well-being, and various certification courses provide opportunities for re-employment.

Dormitory

The dormitory emphasizes creating an environment where long-distance students can entirely focus on their studies. It offers optimal conditions for this purpose. By living in the dormitory, students can experience the fundamental principles of communal living firsthand, facilitating information exchange and mutual understanding.

R.O.T.C.

Being the cradle of patriotic spirit, vision, pride, and dreams, the Daegu Haany University student military group is committed to "cultivating junior officers with proper values, character, and outstanding qualities." All instructors strive to form exemplary personalities through education in loyalty, filial piety, and propriety.

Hyangsan Library

Established in 1982 as the Hyangsan Library, it provides students and faculty members with academic information. It operates comprehensive reading rooms, a creativity and multiplex space, a quiet room, a personal collection room, and a separate branch for the users of the Suseong campus.

Hanhakchon

Alongside classic courses rich in humanities wisdom, we continue developing and preserving the fading traditional culture through diverse and beneficial educational and experiential programs, such as traditional etiquette education and cultural experience events.

Museum

Opened in September 1995, this museum, growing around Daegu Haany University's traditional medicine college, showcases the regional characteristics of Daegu, renowned for its medicinal traditions. By excavating and displaying materials from history, culture, arts, folklore, archaeology, and anthropology, we serve the academic research of professors, students, and researchers. Through this, we actively support related surveys and research activities, thereby promoting the unique culture of our nation.

Employment Support Team/University Job Center

The employment support center conducts tailored, in-depth job counseling and provides continuous support for resumes, self-introductions, and mock interviews according to type. By discovering excellent employment opportunities, we regularly administer and interpret vocational psychology tests and support students with tailored job placements to their desired companies.

Career Development Center

Programs include Self Career Exploration and Capacity Building / DHU High School Club Guidance Student Teacher Dispatch / Ocarina Art Education Program / "Friend! Want to Try Skiing?" / (New) Kyungsan Senior Welfare Center's Depression Alleviation Project 'Youth Classroom' / Suseong District Health Center Student Community Health Leader Training and Certification / DHU Urban Renewal Student Activist Training / inG School Youth Career UP Camp / Basic Horse Riding Course / Career Development Working Holiday Course / Student Participation Committee Activities.

Startup Education Center

We foster an accurate understanding of startups and cultivate entrepreneurial talent through creative thinking formation and simulation of the overall process. By inviting internal professors and external experts, we conduct special lectures on themes such as talent cultivation, vision, dreams, and methods of college life. We also invite external startup consultants and CEOs to conduct professional startup consultations.

International Exchange Team/Foreign Student Support Center

An institution responsible for international education and exchanges operates various international programs, including foreign language education for enrolled students and Korean language training for foreigners. In pursuit of the university's globalization, we are advancing multiple projects, such as infrastructure development and establishing an efficient administrative support system.

Media Center

The newspaper, intending to promote media development and embody university culture, reports the university's academic achievements and progressive aspects to internal and external audiences. Founded to cultivate readers' constructive criticism and educational temperament, its history began upon receiving the school paper publishing permit (No. 2793) from the Ministry of Culture and Public Relations on September 12, 1983. Consequently, on September 30 of the same year, the "Daegu Haany University Paper" was launched.

Student Health Promotion Center

Under the value of "a university cultivating healthy talents," we operate the Student Health Promotion Center by integrating the existing gym and health clinic and adding the concept of student health management. We strive to enhance students' health, provide health knowledge, enable students to manage their health and assist in leading a healthy campus life.
