Korean Language Course

A Korean Language Course exclusively for international students is conducted by GEC (Global Education Center).

The primary objective of the program is to facilitate the learning of the Korean language and culture, while also aiding international students in adjusting to life in Korea.

This course stands out from other Korean language programs available elsewhere in Korea. As a leading institution in specialized engineering education, KOREATECH provides language programs tailored to meet the practical needs of students aiming to enroll in the Engineering College. Students admitted to an advanced level in the KOREATECH Korean Language program will have the opportunity to learn the language through a systematic curriculum that integrates with engineering lectures, covering both theoretical and practical aspects, including field studies. Ultimately, our Korean language program offers students the chance to obtain a high-quality education and immerse themselves in the experience of studying at a prestigious institution at a relatively low cost.
