My Study-abroad Experience at the **AKS**

Roxanne Canelle ROSSIGNOL

**Currently Enrolled in
MA in Korean Cultural Studies**

Reasons I chose the AKS

After a bachelor in Art History, I wanted to specialize in Korean Art History, and was planning on applying for a Master's degree in Paris, but **my Korean teacher suggested** I should study in Korea directly. She is the one who introduced me to the Graduate School of Korean Studies, AKS. After researching about the school online, it seemed clear AKS was the most appropriate place to continue my studies.

How to Overcome Difficulties

One of my main difficulties was **money-related**, as I didn't get the scholarship during my first semester. I had savings, but the anxiety that came with living-costs was impacting my quality of life. But I poured my time and efforts into my school-work and got the scholarship for my second semester.

My other difficulty is probably my **Korean level**, which is still insufficient for my own standards and for graduation. But I am studying diligently and trying my best to interact with Korean-speakers, and it is clear my language proficiency has already largely improved in the 8 months I've been here. If I keep studying seriously, there is no reason for me not to achieve TOPIK 4 by the time I graduate in mid-2026.

Benefits of Studying at the AKS

Firstly, studying at the AKS as an international student offers clear advantages: **no tuition fees, possibility to get a scholarship, affordable dormitory, included language courses**. Compared to other schools, AKS is more accessible on those matters. Education-wise, students have access to a **wide range of classes and subjects** to study, offered by highly qualified scholars. The quality of education we receive prepares us to become experts in Korean studies. On the “funnier” side, through the school we have access to various **cultural activities and field-trips**, which makes our experience here more valuable.

To the **AKS Applicants**

If your goal is to become an expert in Korean studies, the Graduate School of Korean Studies is the right choice.

I've come to realize our experience in this school, and in Korea, is what we make of it. Explore Seoul, make friends, study with passion, eat chicken and convenience store ice cream, visit other cities, and read books! I'm grateful for my life here, and if you come with the right motivation, you will too!

1-1. **Why** I chose the AKS

I have studied Korean studies in my bachelor's degree and knew I wanted to keep pursuing this field throughout my Master's degree as well. While researching about appropriate universities in Korea I came across the AKS and was immediately intrigued by **the programs and majors** offered.

1-2. **Why** I chose the AKS

Since the **AKS specializes in Korean studies** and also has **many international students** from a wide range of countries, I felt I could enjoy studying here very much. Also, the fairly remote location of the campus is a nice addition, since there is always **beautiful nature** around, but it has many restaurants and cafés nearby as well as it is still **quite close to Seoul**.

2-1. **How to overcome difficulties** during my study

It is always difficult to go to a different country to study and live there. Especially since Korean culture is very much different from German culture, I struggled in the beginning to find my place here. Luckily the AKS has many **international students who all bond through this shared experience of studying abroad** and I was able to find good friends who understand and share my struggles. I think through meeting people, other foreigners and Koreans, and going outside campus and experiencing Korean life helped me to feel more and more at home.

2-2. **How to overcome difficulties** during my study

Additionally, the AKS has a **counselling service** which is always available to help student's mental health struggles and offers workshops to talk about these things in a group setting, all free of charge. Thanks to **the great community** I experienced at the AKS in my major specifically, I luckily never had to deal with many big difficulties which I am very grateful for.

3-1. **Benefits** of studying at the AKS

Usually, Korean University tuitions are very high and it is amazing that the **AKS offers their programs free of charge for all foreign students**. Additionally, it has more **scholarship opportunities** as well as quite a few options to **work part time on campus**. Apart from financial benefits, the AKS has a great specialized library and many competent professors with expertise in a wide range of fields connected to Korean studies. So, no matter what specific interest one might have, there is a **high chance of finding a professor skilled in that specific field**.

3-2. **Benefits** of studying at the AKS

Also, while studying here, the course options are not limited to your own major. As long as your Korean level is high enough, **everyone is welcome to attend any majors' classes**. Also, the AKS has many **sister universities** including Seoul National University, Korea University etc. where you can take courses as well. So even though this is a small institution, there are many opportunities to attend a wide range of classes.

4. To potential applicants of the AKS

If you consider applying to this institution, I will highly recommend **starting the process as early as possible**. There are many document requirements, and some take longer to obtain than others, especially in Germany. So good time management is essential and I am sure this doesn't just go for the AKS but any school you are planning to apply for.

- ✓ Assistant Professor at **Jawaharlal Nehru University**

“If you want to study Korean studies properly, I highly recommend the Graduate School of Korean Studies, the Academy of Korean Studies, which has a **beautiful Korean traditional campus, expert professors, and caring staff**. Don't miss out on the great opportunity to work on your research in the **library, which has an abundance of resources.**”

✓ **About the GKS Program**

My proudest achievement in life so far is being a GKS scholarship recipient. It gave me the opportunity to not only live abroad while obtaining my graduate degree, but it also supported me financially in so many aspects, which I know is one of the biggest struggles in acquiring higher education. Receiving that kind of help **alleviated a lot of stress which helped me focus more on my studies!**

Kelly Jane Ompad

✓ About the Graduate School of Korean Studies

- ✓ I miss AKS terribly. The environment and surroundings are so **peaceful and relaxing**. It is **the best place to study**. I can always rely on taking short breaks around the campus because the scenery is beautiful. The admin office staff are also super quick and helpful. Plus the **Korean language courses and teachers are amazing**. The **classes are small** so it's a lot easier for students and teachers/professors to discuss and engage more. In my experience, the professors in my department were all amazing and always ready to help, so don't be afraid to email them or visit them during office hours!

Words from Alumni

I want to say that the Academy of Korean Studies is widely regarded as a **leading institution for learning and research in Korean studies**. I highly suggest international students to join here. - *Shreejana Gnawali from Nepal, 2012 Graduate, Visiting Professor at **Kyungsung University, Busan, Korea***

Words from Alumni

- ✓ Don't hesitate to apply even if your Korean skills are not that great yet. You will have intensive Korean classes and improve right away! You got this :) - *Jitka SKOCDOPLOVA from Czech Republic, 2021 Graduate, Executive Secretary to the Head of Mission, Embassy of the Czech Republic in Korea*
- ✓ AKS is full of great people and opportunities. Use it to **build your network** and **work on your research skills**. Also, don't forget to practice your Korean every chance you get! - *Rana Amr Mohamed Mahmoud ELMETWALLY from Egypt, 2023 Graduate, Adjunct Professor, Film Dept., American University in Cairo*

I really enjoyed my time at AKS. If I could give any advice, it would be to **take advantage of the library more and knowledgeable professors**. I wish I talked to them more on issues I was curious about.

Also, time flies, so please choose your area of interest for your thesis as soon as possible. This way, you can improve it without being stressed by the deadline. Lastly, I'd advise you not to forget to **have fun outside academia**, prioritise your mental health, and take breaks when needed.

- *Sule Nur DALKILIC from Turkiye, 2021 Graduate, Senior Specialist at **Samsung Electronics Turkiye***
