YOUNGSAN UNIVERSITY CHAIRMAN MESSAGE

I am Dr. Chan-Yong Ro, Chairman of the Sungsim School Foundation.

2023 holds special significance for us, marking the 50th anniversary of the 'Sungsim Foundation' and the 40th anniversary of 'Y'sU Youngsan University,' a beacon of academic excellence under the aegis of the Sungsim Foundation. Guided by our founding principles of 'Won-Yung-Mu-Ae' and 'Hong-Ik-In-Gan,' Youngsan University strives to foster wise individuals with an academic approach rooted in seeking truth from facts. We have earned recognition both domestically and internationally as a reputable institution genuinely excelling in education.

Our commitment was underscored this year when the College of Hotel and Tourism at Youngsan University achieved a joint 2nd national rank and was placed between 51st to 100th globally in the Hospitality & Leisure Management sector by QS, a prestigious global university evaluation agency. With our emphasis on pivotal departments essential to the tourism industry, including areas like the MICE industry and medical tourism, Youngsan University is poised to make significant contributions, especially if Busan is chosen as the host for the '2030 World EXPO.'

At Youngsan University, we are committed to ensuring every student evolves into a global talent, fully equipped to navigated the challenges of the contemporary world. I invite you to envision a brighter future with Y'sU Youngsan University, a distinguished institution steeped in history, tradition, and an undying passion for cultivating world-class talents.

Thank you.

May 2023.

Sungsim Foundation
Charman of Y'sU Youngsan University
President of the Korean Association of University Corporations
International Studies Dr.

Chan-Yong, Ro 노 찬 용

YOUNGSAN UNIVERSITY PRESIDENT MESSAGE

Hello.

I am Gu-Wuck, Bu, President of Y'sU Youngsan University.

Youngsan University is committed to cultivating wise individuals, grounded in our founding principles of 'Won-Yung-Mu-Ae' and 'Hong-Ik-In-Gan,.'

Wise individuals can adeptly navigate and adapt to future societies without losing their way.

Youngsan University envisions a future coexisting with artificial intelligence, represented by ChatGPT. While AI's relentless machine-learning capabilities will soon eclipse human knowledge, we believe that the domain of wisdom will forever be the domain of humanity.

Through wisdom, we commit to educating our students to creatively and proactively tackle any challenges. Our unique initiatives, such as the 'Dasan Project,' where students immerse themselves in about 50 classics before graduation; the 'Humanity Contest,' which delves into the profound beauty inherent in all humans; and the 'Smile Festival' that contemplates the true essence of happiness, are designated to deepen one's journey into wisdom.

Embracing the principle of 'Seeking Truth from Facts (實事求是),' our signature employment and career program, 'YCMP(Youngsan Career Map Progam),' supports students from admission to graduation in their career exploration, employment, and career management.

Last year, the YCMP was honored with a presidential commendation for its remarkable contributions to job creation, further validating its efficiency.

Design a joyful future at Youngsan University, where we prepare wisely for the future.

May 2023.

President of Y'sU Youngsan University Gu-Wuck, Bu 부 구욱

Achieving the Best Results,
Youngsan University

At Youngsan University, our reputation is not built on more spectacles, but on undeniable 'facts.'
Our globally recognized academic achievements testify to our standing as a world-class institution.
As we usher in the future with groundbreaking knowledge creation, Youngsan remains unyielding
in its pursuit of excellence, pushing boundaries through continuous challenges and innovations.

Distinctive Competencies of Youngsan University

- University accredited by University Institution Evaluation (2019-2023, Ministry of Education)
- QS World University Ranking: Ranked No.1 among non-Seoul institutions for the School of Hotel & Tourism in 2023, No.2 nationally
- QS World University Ranking: Joint 4th in the Busan-Ulsan region in 2022, and No.38 nationally
- The first university in the country to receive accreditation from WACS (World Association of Chefs' Societies)
- University accredited by the Korean Nursing Education Accreditation Board

Tailoring Talent
Through Campus Specialization

Department of Foodservice Management

A Cradle for Foodservice Start-Ups and Specialized CEO Training

The Department of Foodservice Management is dedicated to cultivating global leaders in the 21st-century foodservice and food distribution sectors. Our mission is to inspire and guide students toward establishing foodservice giants to rival brands like McDonald's, Starbucks, and Caffe Bene. Concurrently, our ultimate aim is to cultivate them for CEO-level positions in leading food supply distribution firms such as Costco, CJ Freshway, and Hyundai Green Food. Our curriculum lays a solid foundation with courses that offer insights into the foodservice landscape, hands-on training in coffee-making and diverse beverages, culinary techniques, and the intricacies of food distribution. Furthermore, we delve deep into vital managerial principles, spanning business administration, marketing, HR, and accounting. Emphasis is also placed on specialized topics like foodservice marketing, franchising, and entrepreneurial strategies in the food sector.

Department Strengths

IPP Work-Study Program : Earn credits, salary, and employment opportunities all at once

1. Start-up Mastery: Delivering hands-on know-how for achieving success in renowned eateries.
2. Field Trips: Annual international journeys exploring cutting-edge global food cultures.
3. Leadership Development: Shaping the future leaders of the global foodservice industry.
4. Professional Training: Blending entrepreneurial theories with hands-on foodservice expertise.
5. Cultural Exploration: Engaging in overseas culinary expeditions and semester-long immersion programs to hone global competencies.
6. Employment Opportunities: Exclusive job openings through our LINC+ and IPP partnerships.

Department of Tourism & Convention

We are one of only two institutions in Korea where the president of BEXCO personally instructs students!

Tourism and conventions (MICE) are pivotal in today's global landscape, with cities like Busan emerging as leaders. Notably, Busan, designated as South Korea's first "International Tourism City" in 2020, ranks 7th globally in hosting international events. As Busan aims to host the 'World Expo' by 2030, its prominence in the MICE sector grows. At Youngsan University, we emphasize practical education, with faculty members including leaders from Busan BEXCO, Korea Tourism Organization, and KOTRA's Middle East division.

Department Strengths

IPP Work-Study Program : Earn credits, salary, and employment opportunities all at once

1. Esteemed Faculty: Notable members include the President of BEXCO, the Head of the MICE Department at the Korea Tourism Organization, and the Chief of KOTRA.
2. Generous Scholarships: Rewards of 2.5 million KRW for TOEIC scores exceeding 800 points.
3. Consistent Excellence: Seven-time consecutive champions of the National MICE Content Development Contest.
4. Trusted Operations: Entrusted with overseeing the 2020 Haeundae Tourism Exploration Group.
5. Recognition: Commendation from the president of the Busan Tourism Organization in 2021.
6. Recognition: Designated as the Excellent Startup Department by the Busan Tourism Organization in 2021.
7. Recognition: Recipient of the Best Award for Academic-Industry Collaboration Project by the Busan Tourism Organization in 2021.
8. Innovation & Research: Chosen for the 2022 Tourism Industry Innovation Growth R&D project by the Ministry of Culture, Sports, and Tourism.

Department of Broadcasting and Photography Arts

Cultivating experts in broadcasting, YouTube creation, and photo & video production!

The Department of Broadcasting and Photographic Arts is committed to honing experts in broadcast production, YouTube content creation, and hands-on visual media. As the digital multimedia landscape evolves, our mission is to equip students with the skills to thrive. With state-of-the-art broadcast production facilities among the nation's best, we guide students to realize their dreams as video creators. Our distinguished faculty, drawn from top media entities both locally and globally, offers invaluable insights. This premier education is further amplified by our exclusive iYBS Internet Broadcasting Station.

Department Strengths

1. Premier Facilities & Expertise: Boasting the nation's top-notch broadcasting, YouTube content, and visual media facilities, we're further elevated by a faculty rich in broadcasting acumen.
2. Trailblazing Initiatives: Our distinction lies in operating the first-ever iYBS Internet Broadcasting Station at a university level. We further enhance student experience through expansive internships at local and global broadcasting entities.
3. National Recognition: Honored by the Ministry of Education as the southeast region's premier department for arts and physical education, backed by a specialized program for regional universities.
4. Impressive Employment Record: For three consecutive years, over 70% of our graduates have secured positions in the broadcasting, photo, video, and media sectors.

Department of Webtoon

FIrst / Largest / Most / Latest – Choosing Youngsan University's Webtoon Department is your "Best" decision to be the "Best"

In the era of digital media, the webtoon industry has not only witnessed consistent growth but has also emerged as a dominant force in Korean cultural exports. Serving as foundational content for the multimedia industry, webtoons have evolved into various cultural adaptations, including movies, dramas, and games. This places webtoons at the heart of a wide range of cultural content. At the Webtoon Department, we boast state-of-the-art facilities, equipment, and a curriculum specifically crafted for webtoon creation. Our faculty, comprised of active industry professionals, is devoted to molding the next wave of creative talents. Our mission is to ensure our students excel in the webtoon industry, with a robust foundation in both theory and hands-on practice.

Department Strengths

IPP Work-Study Program : Earn credits, salary, and employment opportunities all at once

1. Trailblazing Major: The first in the nation to exclusively offer a four-year degree in webtoons.
2. Webtoon Library: Boasts the country's first collection, with over 5,000 webtoon-related books and tablet PCs.
3. Innovative Curriculum: Pioneering courses in areas like webtoon PD, continuity dramatization, and instructor training.
4. Exceptional Capacity: The most expansive department of its kind in the Busan-Ulsan-Gyeongnam region, welcoming up to 50 students.
5. In-School Business: Actively generates revenue through the proprietary "Y'sToon" webtoon brand studio.
6. Industry-Active Faculty: A blend of current webtoon artists and experts, ensuring a holistic blend of theory and real-world insight.
7. Advanced Techniques: Emphasizes cutting-edge creativity through an AI-integrated education program.
8. Strategic Collaboration: Holds a partnership with 'Jaedam Media', the leading webtoon management agency in the nation.

Department of Game and Virtual Reality

Leading Department in Metaverse: "Gaming Becomes Culture and Imagination Turns Into Reality"

As gaming and virtual reality spearhead the Fourth Industrial Revolution, they emerge as value-driven industries. The Department of Game and Virtual Reality provides a pioneering education, blending humanities, arts, and engineering. Committed to shaping specialists in game and VR content, our focus is on real-world application and practical training. Our mission is to develop the next generation of industry leaders, endowed with global acumen and readiness.

Department Strengths

IPP Work-Study Program : Earn credits, salary, and employment opportunities all at once

1. State-of-the-Art Labs: We feature dedicated areas for game and VR development, including multiple Project Rooms and an immersive VR Experience Zone.
2. Industry Recognition: Winners of the Busan ICT Convergence Capstone Design Competition and selections of outstanding indie games at G-Star.
3. Advanced Production: Our students craft games and VR content utilizing the latest commercial game engines.
4. G-Star Participation: Active engagement in G-Star, a premier international game exhibition, including booth management and showcasing our students' game and virtual reality creations.
5. Content Creation Lab (CCL): A versatile space designated for content creation, workshops, and prototype production.
6. Industry-linked Capstone Design: Focused on enhancing specialized expertise and expanding job opportunities through real-world projects.

Department of Design

Major of visual design & motion graphic

"Design-up" with integrated education, "Start-up" your future

Our major, located in Haeundae, a global convention and tourism hub, provides an ideal space for students to unleash their imaginative and creative designs. Supported by experienced faculty members, our curriculum encourages students to deeply engage in research and experimentation, fostering a genuine passion for design. We seamlessly integrate traditional design disciplines with meta-design realms, preparing hybrid designers equipped to pioneer the Fourth Industrial Revolution.

Talent Cultivation Process

"Design-up" with integrated education,

Department of Design

Major in interior & environmental design

We create the culture of everyday life.

In modern society, interior environment design has expanded beyond just residential spaces to address broader environmental concerns. As areas like space optimization, environmental harmony, aesthetics, interior planning, exhibition design, furniture creation, and urban environment development become increasingly detailed, designers require advanced expertise. Furthermore, there's a growing demand for an integrated design approach that spans these areas. Our program is committed to nurturing future designers who can adeptly bridge space, environment, and culture. We emphasize a holistic design education that both resonates with and contributes to local culture.

Department Strengths

IPP Work-Study Program : Earn credits, salary, and employment opportunities all at once

1. Hands-on Approach: Operating a curriculum centered on on-site training.
2. Tailored Curriculum: Introducing systematic medium to long-term educational programs adaptable to changing times.
3. Participatory Education: Expanding project execution where professors and students collaborate closely.
4. Skill Development: Enhancing core strengths with rigorous competition training.
5. Comprehensive Support: Implementing an educational program ensuring assistance from admission to employment.

Department of Design

Major in Cartoon & Animation

Cultivating Creative Independent 'Comic Artists' and Practical 'Animators'

In the 21st century, South Korea's content has ascended globally, with comics and animation being the crown jewels of popular art, epitomized by the K.WEBTOON and K.ANI culture wave. Living by our ethos, "One Person, One Cartoon & Animation," our commitment is unwavering in cultivating talent. We ensure our students master the foundational tenets of comics and animation, from planning and scripting to character design. Simultaneously, we emphasize crucial production skills across both fields.

Talent Cultivation Process

Global Creator

Talent Cultivation

Through our unparalleled industry-academic collaboration, we cultivate students' practical skills in animation and comics, molding them into comprehensive cultural content creators.

Relevant Fields

Animator, Animation PD, Concept Designer, Storyboard Artist, Character Designer, Comic Artist, Webtoon Artist, Webtoon PD

Department Expertise

2D Animation Production Techniques, Storyboard Development and Articulation, Character Conceptualization and Design, 3D Animation Creation Techniques, Continuity Direction and Webtoon Development, Collaborative Projects through Industry-Academic Partnerships

Certifications Obtainable

Animator, Storyboard Artist, Concept Designer, Character Designer, Comic Artist, Webtoon Artist, Animation PD, Webtoon PD, Illustrator, Video Producer

Post-Graduation Career

Engineer Colorist, GTQ Photoshop (National Certification), Craftsman Computer Graphics Operation, ACA International Certification

Department Strengths

IPP Work-Study Program : Earn credits, salary, and employment opportunities all at once

1. Industry-Academic Collaborations: Forging practical production skills through premier collaborations in Korea.
2. Webtoon PD Academy: A first in Busan, established in partnership with KWIA (Korea Webtoon Industry Association).
3. Practical Training: Sessions led by industry-renowned animation directors and webtoon artists.
4. Infrastructure: Offering unparalleled facilities optimized for comics and animation production.
5. Expert-Driven Curriculum: Courses designed and taught by Busan's leading hands-on professionals.
6. Active Industry Engagement: Ensuring job placements and project involvement, fueled by strong industry-academic collaborations.

Department of Acting& Performing Arts

To the Stage, to the World, to the Future - Cultivating Global Entertainers

The Department of Acting & Performing Arts is at the forefront of internationalization, with a unique emphasis on regional youth content development. Our mission is to groom global entertainers who can seamlessly navigate diverse mediums, whether it's stage shows, musicals, broadcasting, or films. Our consistent participation in prominent international performance festivals like Avignon in France, Edinburgh in the UK, and Tenzione in Italy demonstrates our global presence. Additionally, our collaboration with sister institutions in Denmark, France, Thailand, and Indonesia facilitates enriching international exchange programs. These strategic engagements underscore our commitment to specialized education, aiming to shape performance art experts for the global stage of the 21st century. We are especially proud of our 'Top Class Actor Training' program, which has reaped accolades at the Hyundai Motor Group University Student Theater & Musical Festival from 2020-2023. The department's collaboration agreements with R&DWorks, Hongik University Graduate School, and the 'Platform' for Arts Education further expand the opportunities for our students, reinforcing our dedication to practical, hands-on learning experiences.

Department Strengths

IPP Work-Study Program : Earn credits, salary, and employment opportunities all at once

1. Educational Excellence: Secured a grand slam at the Hyundai Motor Group University Student Theater & Musical Festival for three consecutive years (2020-2022), clinching top prizes in drama, musicals, acting, and stage technology.
2. Global Festival Participation: Actively participated in international festivals, including the Avignon Festival in France, the Edinburgh Festival, BIFAF in Bandung, Indonesia, and the Tenzione Festival in Italy.
3. International Collaborations: Forged MOUs with prestigious international institutions such as the Avignon National School of Arts in France, the National School of Arts in Denmark, Chulalongkorn University in Thailand, and Bandung State University of Education in Indonesia, as well as a domestic collaboration with Hongik University Graduate School.
4. Specializes in academia-industry education focused on local youth content development, highlighted by original musicals such as 'Eobang', 'Lee Mong-ryong', and 'I am not an Independence Army'.

Department of Police Administration

Your choice to become an honorable police officer

The Department of Police Administration, renowned for its prestige, combines expert faculty from diverse fields like police studies, criminology, law, and martial arts. We are committed to equipping students with the specialized knowledge and skills crucial for future police officers, aiming to produce leaders in public safety. Our balanced approach merges academic depth with practical training, offering facilities like criminal science labs, arrest technique rooms, and a global investigative training module. Additionally, our distinct preparatory program consistently produces graduates who join the ranks of police officers, maritime police, and administrative officers in the justice sector.

Department Strengths

IPP Work-Study Program : Earn credits, salary, and employment opportunities all at once

1. Focused Qualification Training: Our program is tailored to police recruitment exams, with a track record of producing over 400 domestic police officers.
2. U.S. Forensic Research Program: Initiated in 2019, students delve into scientific investigative research in New York.
3. Tailored Educational Programs: Specifically designed for police recruitment exams, introducing major subjects to prepare candidates comprehensively for the police recruitment test.
4. Competitive Edge: Students can earn bonus points for police officer positions. The program also offers mock interviews, and specialized training to address pressing issues such as drug abuse and school violence.
5. Insightful Field Trips: Organized visits to pivotal institutions including the National Police Agency, National Investigative Training Institute, Central Police Academy, and Police Investigation Training Center.
6. Dedicated Police Exam Preparatory Class: This offering includes complimentary dormitory accommodations, private reading rooms, and a comprehensive supply of exam study materials, including video content.

General Administrative Public Service Field (Special Police Officer),
Police Officer, Maritime Police Officer,
Correctional Officer, Prosecutor Officer,
Firefighter, etc.

Department Expertise

Enhancing Legal Awareness,
Expertise in Public Safety Operations,
Communication Skills,
Evidence-based Policy Management
Collaboration with Related Organizations

Certifications Obtainable

Judo Certification (from beginner level to 3rd level), Survey Analyst, Victim Counselor, School Violence Counselor, School Violence Prevention Educator, Media Addiction Counselor, Media Addiction Prevention Educator, Security Instructor

Post-Graduation Career

- Police Officer (Special recruitment for police administration major, general recruitment, investigative support administrator), Crime Scene Investigation (CSI), Crime Analyst, etc.
- Maritime Police Officer, Correctional Officer, Prosecutor Officer, Administrative Officer, Tax Officer, Firefighter, etc.
- Military Officer, Non-commissioned Officer, Military Personnel, etc.
- Private Security Companies (such as ADT CAPS, S-Tech Systems, etc.)

Department of Law

Cultivating competent legal experts at Youngsan University Law Department! Supporting your dreams.

Youngsan University's Law Department is dedicated to fostering a profound legal mindset in students, emphasizing the formation of a 'Legal Mind.' Furthermore, our core educational objective is to cultivate 'Legal Practice Skills, ensuring students are well-equipped to handle real-world applications. With a dedicated team of 10 esteemed professors, we are here to support your journey to becoming a seasoned 'Legal Expert'.

Department Strengths

IPP Work-Study Program : Earn credits, salary, and employment opportunities all at once

1. Law School Admittance: Among private universities in the Busan-Ulsan-Gyeongnam region, our department has the highest number of students accepted into law schools.
2. Examination Success: Judicial Examination (Three successful candidates), Law Schools (16 students admitted), and Bar Examination (12 successful candidates)
3. Public Service Exam Excellence: Numerous students have cleared public service exams, including those for civil servants and police officers.
4. Professional Qualifications: Our graduates have secured qualifications as certified public labor attorneys, certified appraisers, and more.
5. Dedicated Faculty: A team of 10 esteemed professors delivers case-based legal education complemented by personalized career mentoring.
6. Specialized Preparation: To further bolster our students' aspirations, we provide dedicated courses, notably the "Law School Preparation Class" and the "Law Department Exam Preparation Class."

Department of Taekwondo

A traditional Department of Taekwondo cultivating global leaders

At the Department of Taekwondo, while our core focus remains on achieving educational excellence through Taekwondo, we ensure that our students are exposed to a diverse academic experience. This encompasses international internships, language proficiency courses, humanities studies, and, of course, rigorous Taekwondo training. Our mission is to nurture global leaders well-versed in the art of Taekwondo and equipped with a broad spectrum of knowledge.

Department Strengths

IPP Work-Study Program : Earn credits, salary, and employment opportunities all at once

1. International Collaborations: Engaging in exchanges with national associations from Europe, the US, China, East Asia, Southeast Asia, and more, along with sending trainees for immersive experiences.
2. Overseas Opportunities: Facilitating job placements abroad through partnerships with overseas Taekwondo studios.
3. Specialized Programs: Offering tailored programs focusing on sparring, poomsae, demonstrations, and power-breaking.
4. Research Development: Collaborating with Kasetsart University's KUTA in Thailand to enhance students' research capabilities.
5. Diverse Instruction: Benefit from teachings by international professors.
6. Global Exposure: Participate annually in international demonstrations and sparring competitions.

Department of asian Martial Arts

Cultivating martial arts instructors with both literary and martial virtues

At the Department of Asian Martial Arts, our mission is to shape talents with a forward-thinking and global mindset. In today's age of leisure culture, we champion Oriental martial arts not just as a sport, but as a holistic discipline encompassing health, self-defense, and spiritual growth. Our dedication is to nurture martial arts instructors who seamlessly blend contemporary virtues with time-honored etiquette.

Department Strengths

IPP Work-Study Program : Earn credits, salary, and employment opportunities all at once

1. Student-Centered Achievements: Through initiatives like the operation of the Asian Martial Arts demonstration team, we've boosted employment rates, achieving an impressive 83% in 2020 based on university disclosure standards.
2. Tailored Career Support: Our unique mentoring system, segmented year-by-year and sport-by-sport, ensures focused guidance and support for students in their chosen martial arts discipline and career path.
3. Real-World Experience: We facilitate employability through overseas internships and comprehensive domestic field training, preparing students for global opportunities.
4. Expert Faculty: Our department boasts a cadre of instructors and lecturers with a keen emphasis on practical skills spanning a diverse range of martial arts disciplines.
5. National Recognition: Our students not only actively compete in national sports festivals and various tournaments, but also hold a track record of notable achievements and awards, especially in disciplines such as Wushu, Kendo, and Judo.

Department of Sea and Air Logistics

Handling both maritime and air transport at once, you are the ultimate master of one-stop logistics!

The evolution of 21st-century 'Business Logistics' is marked by the dawn of the smart logistics era, where combined transportation merges with diverse scientific technologies. As we delve into the Fourth Industrial Revolution, it's essential for professionals to exhibit both problem-solving prowess and systematic thinking capabilities. Our department, concentrating on logistics management and transportation, is primed to cultivate talents that modern logistics firms desire. We're committed to developing experts who are not only adept in the latest technologies such as big data, AI, autonomous driving, blockchain, and IoT but also equipped with profound economic and managerial insights to seamlessly integrate into the smart logistics landscape.

Department of Mechanical and Automotive Engineering

No more job worries! Cultivating promising engineers for the machinery and automotive industry!

At the Department of Mechanical and Automotive Engineering, we offer an interdisciplinary academic program designed to immerse students in the operational principles and intricate design mechanisms of mechanical systems. This foundation empowers them to pioneer the development of advanced smart cars for the future. Situated in Ulsan—the heartland of the machinery and automotive sectors—we leverage our prime location and robust industry-academic partnerships, which extend to Busan and Gyeongnam in the southeastern automotive industrial zone. With these advantages, our ultimate goal is to achieve a 100% employment rate for our graduates in pertinent companies, research institutions, and public organizations.

Department Strengths

IPP Work-Study Program : Earn credits, salary, and employment opportunities all at once

1. Certification Success: In 2020, 88% of our students who attempted the international certification test for 3D design were successful, resulting in 36 students earning their certification.
2. Future-Ready Education: We're dedicated to cultivating interdisciplinary talents poised to lead in the realm of future-oriented automobiles.
3. Hands-On Training: Our program boasts specialized training rooms tailored to real-world applications, including a car workshop, 3D design room, and electronic control workshop.
4. Extracurricular Opportunities: Beyond the classroom, we support programs like the production of motorsports drift race cars and assist students in acquiring relevant certifications.
5. Engage with Us: Experience the dynamic learning environment of our department firsthand by searching 'Y's Bear' on YouTube.

- Research Institutes: Technology, Machinery, and Communication-related Research Institutes

Department of Hydrogen Systems Engineering

I am the protagonist of the future eco-friendly energy era

In the Department of Hydrogen Systems Engineering, we immerse students in the design, production, and operation of cutting-edge future energy systems. This holistic education spans disciplines of mechanical, chemical, and electrical engineering, enabling students to translate academic concepts into tangible systems. A core emphasis lies in mastering the operation of hydrogen fuel cell systems across their life cycle - from hydrogen production to utilization and understanding the intricate roles of each component. Leveraging this knowledge, students harness computational tools for design and engineering analyses, and they subsequently engage in the practicalities of product creation. Our overarching mission is to foster expertise in sustainable energy systems through hands-on, project-based learning and rigorous research endeavors.

Department Strengths

IPP Work-Study Program : Earn credits, salary, and employment opportunities all at once

1. Hands-on Approach: Emphasis on practical-focused learning encompassing the design, production, and operation of hydrogen energy systems.
2. Holistic Curriculum: Comprehensive exploration of the entire lifecycle of diverse eco-friendly energy systems.
3. Technical Proficiency: Training in various system design and analysis tools to equip students with the latest technological skills.
4. Funding Opportunities: Potential scholarships and research funds available for students delving into the department's key research areas.
5. Unique Position: Proudly the sole department specializing in hydrogen systems in the southeastern region.

Department of Electrical and Electronic Engineering

Cultivating specialized convergent talents in the core energy and IT sectors of the future industry

In the Department of Electrical and Electronic Engineering, we cultivate talents prepared to challenge traditional industries, such as smartphones, semiconductors, and displays, as well as key future industries including smart factories, renewable energy, electric cars, and robotics. Through the 'AI-based Smart Factory Track' designated by the Ministry of Education for the Fourth Industrial Revolution Innovative Leading University, and the operation of the 'Power Energy Convergence Track' for the Regional Leading University Project, we conduct practical, industry-oriented education.

Department Strengths

IPP Work-Study Program : Earn credits, salary, and employment opportunities all at once

1. Scholarships: Awarded the Korea Electric Power Corporation college student scholarship for six consecutive years (2017-2022).
2. National Recognition: We are the only department in the country selected for the 'Fourth Industrial Revolution Innovation-leading University' project (2019-2021).
3. Distinguished Programs: Selected for the Gyeongnam-type Smart Job Professional Training Project (2019-2022).
4. Student Achievements: Our students have achieved notable recognition, including the Best Paper Award from the Korean Lighting & Electrical Equipment Society and numerous capstone design awards.
5. Esteemed Faculty: The department is proud of its faculty, which includes experts from industry giants like Samsung Electronics, LG Electronics, and Japan's NHK, as well as from leading research institutes.
6. Industry Collaboration: We maintain robust industry-academic cooperation, especially with electrical and electronics-related companies situated in industrial complexes proximate to the school.

Department of Drone Spatial Information Engineering

The Fourth Industrial Revolution of the sky, it's now the future. Let's prepare for the future

The keyword of the Fourth Industrial Revolution, 'drone', is experiencing increasing demand in various fields such as spatial information, transportation, and smart cities. In the Drone Spatial Information Engineering department of Youngsan University, various programs integrated with drones are being operated to train experts for the Fourth Industrial Revolution. From hardware-related education on drone operations, design, and production to the creation and application of spatial information using software, and 3D modeling, everything is taught. Support is also provided to ensure that all enrolled students can obtain related national certifications.

Department Strengths

IPP Work-Study Program : Earn credits, salary, and employment opportunities all at once

1. State-of-the-Art Facilities: We've constructed an on-campus drone practice field, mirroring the dimensions of real-world drone certification test sites.
2. Focused Education: We are committed to achieving a 100% success rate for students in national drone operation certification exams.
3. Successful Career Outcomes: Annually, our graduates secure positions in public sectors, including government officials and public corporations.
4. Recognition in Competitions: Our students have clinched awards in drone operation and utilization competitions, such as the Bronze in the 2019 Hanbat Drone Championship.
5. Distinguished Alumni: Our alumni have been recognized for their exceptional work, winning accolades from esteemed institutions like the Korean Society of Civil Engineers and the Korean Society of Transportation in 2022.

Talent Cultivation Process

Cultivating drone spatial information specialists to spearhead the Fourth Industrial Revolution

Talent Cultivation

Transportation Expert, Drone and Transportation Convergence Expert, Spatial Information Analysis Expert, Drone Spatial Information Utilization Expert, Drone Operation and Design Expert

Relevant Fields	Department Expertise
Drone and Transportation Convergence Field, Drone Spatial Information Field, Drone Operation and Design Field, Public Institutions and Research Institutes	Traffic Planning and Design Capability, Drone Traffic System Operation and Management Capability, Spatial Information Analysis Capability, Capability to Construct and Utilize Drone Spatial Information, Drone Operation and Design Capability

Certifications Obtainable

Pilot of an Ultra Light Vehicle, Engineer Transportation, Engineer Surveying Geo-Spatial Information, Industrial Engineer Transportation, Industrial Engineer Surveying Geo-SpatialInformation, AutoCAD Certification, Road Traffic Accident Appraiser, Traffic Accident Analyst

Post-Graduation Career

Public Officials Specializing in Drones and Spatial Information, Public Corporations and Foundations (National Geographic Information Institute, Korea Land and Geospatial Informatix Corporation, Facilities Management Corporation, Korea Expressway Corporation, Korea Road Traffic Authority, Korea Hydrographic and Oceanographic Agency, Korea Fisheries Resources Agency, Cultural Heritage Administration, Korea Forest Service, Korean National Police Agency, etc.), Traffic Police (Special Recruitment), Drone Surveying and Geodetic Survey, Marine Survey Companies, Transportation Engineering Companies, etc.

Department of Architectural Engineering

Building a Smart City, Designing a New Life

In our commitment to shaping multi-talented experts for the evolving landscape of smart city development, we offer an integrated curriculum that marries architectural principles with critical smart city competencies, all grounded in a robust engineering foundation. Catering to industry needs, our educational modules encompass architectural design, structure, construction, and environment. Additionally, we prioritize enabling our students to achieve major certifications such as Architectural Engineer, Safety Engineer, Industrial Engineer, and Quality Engineer. This focus ensures our graduates maintain high rates of certification acquisition and employability.

Department Strengths

IPP Work-Study Program : Earn credits, salary, and employment opportunities all at once

1. Experiential Learning: Support for architectural exhibitions, field trips, and hands-on experiences in construction industry sites.
2. Certification Prep and Training: Operation of dedicated preparation classes for professional certification, and exclusive workshops, spaces, and special lectures tailored for certification readiness.
3. Competitive Edge: Backing for student participation in external architectural contests.
4. Industry Insights: Hosting special lectures by public officials, public enterprises, and seasoned industry professionals.
5. Career and Extracurricular Support: Assistance for job-seeking club activities, and a variety of extracurricular programs tailored to the major.
6. Certification Success: Notably high certification acquisition rates, such as Engineer Architecture.

Talent Cultivation Process

Architectural Engineering Technician and Smart City Architectural Convergence Expert

Talent Cultivation

Smart City Construction Specialist, Architectural Design Specialist, Structural Design and Safety Assessment Specialist, Eco-friendly Engineering Expert, Architectural Administrative Specialist

Relevant Fields	Department Expertise
Construction Industry, Specialized Design Field, Smart City Architectural Convergence Field, Public Institutions and Research Institutes	Construction Execution and Safety Management Capability, Architectural Facility and Environmental Design Capability, Architectural Structural Planning Capability, Architectural Planning and Design Capability, Capability to Integrate Architecture, Urban Information, and Communication Technology

Certifications Obtainable

Engineer Architecture, Industrial Engineer Architecture, Engineer Interior Architecture, Engineer Urban Planning, Engineer Building Facilities, Engineer Fire Protection System, Engineer Landscape Architecture, Engineer Construction Material Testing, Engineer Construction Safety, Engineer Concrete, Craftsman Computer Aided Architectural Drawing, etc.

Post-Graduation Career

Architectural Design Office, Interior Architecture Company, General Construction Company, Specialized Construction Company, Supervision Company, Structural Engineering Company, Architectural Environmental Engineering Company, National/Public and Private Research Institutes, Architectural Public Official (National and Local Positions), Public Corporations such as Korea Land and Housing Corporation (LH), Korea Hydro & Nuclear Power, and Korea Airports Corporation, Plant Engineering, Urban Development Companies, etc.

Department of Healthcare Management

Cultivating global medical management experts for the era of Smart Healthcare

The Department of Healthcare Management is steadfastly committed to nurturing global medical management experts equipped for the Fourth Industrial Revolution era. We proudly feature state-of-the-art laboratories that facilitate hands-on experiences in healthcare information analysis, harnessing the power of big data. Our curricula are honed to be practically oriented, with specialized training in health information management, hospital administration, international health, and health policy. Our mission is to shape future leaders of the 'Global Healthcare' sector who stand out not only for their practical acumen but also their unwavering integrity.

Department Strengths

IPP Work-Study Program : Earn credits, salary, and employment opportunities all at once

1. Exceptional Outcomes: Our students consistently achieve outstanding employment rates and excel in national examinations, on par with major general hospitals.
2. Global Exposure: We offer global field programs in countries including Kenya, Laos, Vietnam, and beyond.
3. Cutting-edge Facilities: We proudly feature a state-of-the-art big data training lab to ensure our students are at the forefront of healthcare technology.
4. Strategic Partnerships: We have forged clinical training collaborations with esteemed institutions such as Pusan National University Hospital, Dong-A University Hospital, Ulsan University Hospital, Inje University Haeundae Paik Hospital, Kosin University Gospel Hospital, and Dongnam Institute of Radiological & Medical Sciences, among others.

VR Experience Hall (Building M)
Situated on the 3rd floor of Building M, the Virtual Reality Experience Hall stands as the pioneering facility among universities in the Busan, Ulsan, and Gyeongnam regions. It boasts state-of-the-art virtual reality equipment, including PSVR, Oculus, Vive, and motion chairs, offering an unparalleled VR experience.

Webtoon Library (Building M)
The Webtoon-exclusive library houses a collection of over 5,000 webtoon-related books and features a tablet PC-equipped learning room for an interactive webtoon experience. Additionally, it offers facilities for webtoon movie screenings, seminars, and special lectures. This dedicated space is designed to be the nexus of cultural content and the burgeoning K-webtoon industry.

Wise Lounge (Building M)
Located in the M building, the Yeonbong Library is not just a place for study. Beyond its study rooms and DVD corner, it offers a variety of learning facilities and conveniences. Designed as a state-of-the-art multipurpose space, it allows students to both study and relax, catering to their diverse needs.

GC Zone(Global Challenge Zone, Building A)
The campus features an English Immersion Zone designed for students who cannot travel abroad for English language studies. Within this zone, students experience an immersive learning environment, taking classes as if they are enrolled in an overseas English course, all under the guidance of native English-speaking instructors.

Playground(Sungsim Hall)

Situated in Sungsim Hall, the Playground boasts an open seminar lounge, container booths, and open workspaces. Additionally, it offers areas dedicated to relaxation, play, and exercise.

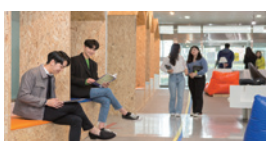

Generation Convergence Start-up Campus Center (Cosmos Hall)

We are committed to identifying start-up teams that unite the younger and middle-aged generations, offering holistic support from funding to the early stages of their venture.

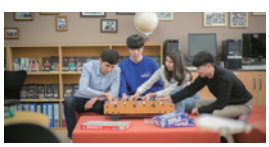

Public Equipment Operation Center (Cosmos Hall)

To spearhead advancements in the Fourth Industrial Revolution, the center is equipped with not only 3D printers and scanners but also state-of-the-art measurement and experimental tools.

Central Library

Spanning one basement level and three above-ground floors, the Central Library offers facilities that cater to both the academic and entertainment needs of students. It features a visual culture hall, an open reading room, a multimedia information room, a language online practice room, and study rooms.

GC Zone(Global Challenge Zone, Sungsim Hall)

The campus features an English Immersion Zone designed for students who cannot travel abroad for English language studies.
