

Korean Language Institute

Founded in 2024, the Korean Language Institute at Donggang University offers high-caliber Korean language education tailored for international learners.

Our team of highly qualified instructors delivers dynamic and effective language instruction designed to foster both linguistic proficiency and cultural competence.

We provide individualized academic advising and professional career counseling, particularly for students preparing to enter Korean universities under the D-2 visa program.

To support student success, the institute maintains a nurturing learning environment through comprehensive oversight of academic performance, attendance, and dormitory life.

Vietnamese-speaking staff members are available at all times to assist students with language support and other concerns.

Each semester, students are invited to participate in enriching cultural activities, including sports festivals, Korean cooking classes, and local excursions.

Additionally, we offer full assistance with visa extensions and complimentary TOPIK preparation courses to help students achieve their language certification goals.
