KONGJU NATIONAL UNIVERSITY
Toward the future with our dreams,
opening the doors to a new tradition,
preparing for the next 50 years.

Future vision toward our dreams

The dream of proud national talents,
The dream of a valuable university growing
alongside the local community,
The dream of a glocal leader
leaping toward the world.
As a representative national flagship university,
The vision of Kongju National University is not
just a hope, but a commitment in action.

History

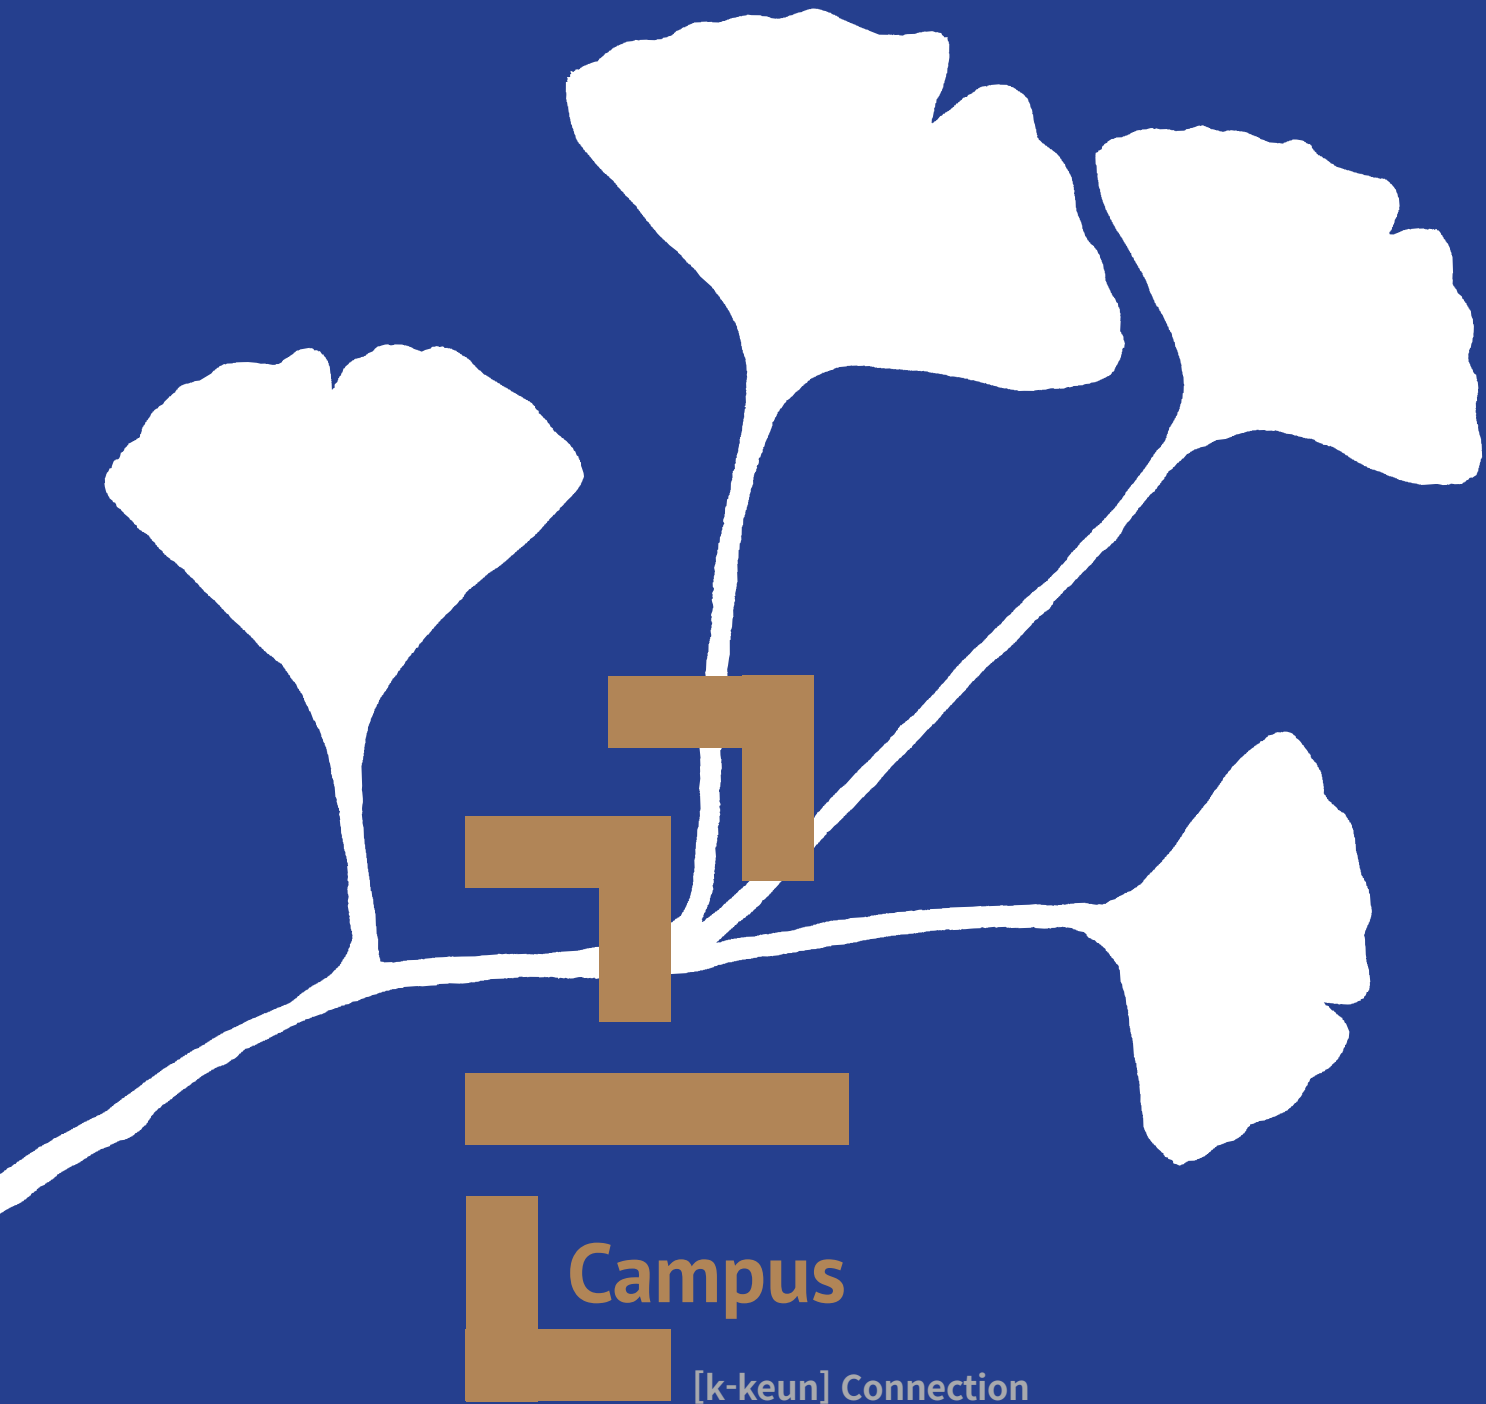

[k-kot] Flower

A flower blooming on deep-rooted time

78 years after bursting into its first bud as Kongju Teachers' College in 1948, The status of Kongju National University, with 7 colleges, a general graduate school, professional graduate schools, and 7 special graduate schools, Along with 22,000 students and 1,500 faculty and staff, And the bold support from Chungnam Province and the nation, Blooms into a newer and more brilliant flower tomorrow.

- 1948 07.31**
Approval was granted for the establishment of the two-year Chungnam Provincial Kongju Teacher's College.
- 1954 04.01**
4 year courses of education were established: Education Major, Korean Literature Major, Mathematics Major, Physics Major, Chemistry Major, Biology Major
- 1990 03.01**
Kongju Teacher's College became Kongju National University
- 1991 03.01**
Kongju National University was promoted to 'University' status
- 1992 03.01**
Yesan Agricultural College was merged into the College of Industry
- 2001 03.01**
Kongju Cultural College was merged into the College of Visual Health
- 2005 03.01**
Cheonan Institute of Technology was merged into the Cheonan College of Engineering
- 2023 11.16**
The university was renamed from Kongju University to Kongju National University following the amendment of the National School Establishment Decree.

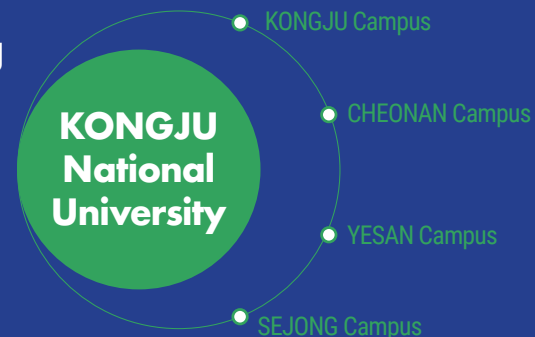

Campus

[k-keun] Connection

Four Campuses, One String

Leading the era of the Fourth Industrial Revolution, we nurture future-oriented talents by linking the competitive synergy of our four smart campuses through the strings of hope and creativity.

KONGJU Campus

A dream of the future, a challenge for the world

Established in 1948, Kongju National University has continued to this day to follow the educational philosophy of truth exploration, value creation and the practice of justice. | **Colleges** | College of Education, College of Humanities and Social Sciences, College of Natural Sciences, College of Nursing and Health, College of Arts, Department of International Studies.

CHEONAN Campus

Cultivating global talents to lead future engineering technologies

Cheonan College of Engineering leads mutual growth with local industries through strategic networks within the northern Chungnam industrial belt. We provide a premium educational experience by integrating cutting-edge facilities with a secure learning environment. | **Colleges** | College of Industrial Sciences

YESAN Campus

110 years of traditional agricultural life and food-a university of globalization

A 611,570.248m2 multiuse educational space and a campus specialized in agriculture, fisheries and the food sector, enabling mutually beneficial cooperation with the local community by fostering outstanding individuals to lead innovative growth. | **Colleges** | College of Industrial Sciences

SEJONG Campus

An innovative new-town "Sharing University", training future leaders

The Sejong Campus of Kongju National University is set to open in 2028, featuring departments designed for mutual growth with Sejong Special Self-Governing City, including the Graduate School of Policy Convergence & Public Affairs.

[k-kaem] Awakening

Breaking the framework of thought
with dazzling achievements,

Breaking stereotypes through
student-centered creative change and
innovation, Supporting today's possibilities
to become tomorrow's leap forward,
Expanding the field of opportunity
and education toward the world,
The gaze of Kongju National University
always points toward the future.

College of Education

Leading Educational Change, Shaping the Future of Education

The College of Education stands as the largest among the nation's national colleges of education, currently comprising 23 departments, 121 full-time faculty members, and a student body of approximately 2,400. As Korea's premier institution for teacher training, it has consistently produced the highest number of successful candidates in the National Teacher Appointment Examinations nationwide. Furthermore, the College continues to demonstrate unrivaled academic excellence, securing an 'A' grade for five consecutive cycles—culminating in the most recent 6th Cycle Teacher Training Institution Competency Assessment conducted by the Ministry of Education—thereby solidifying its reputation through exceptional external evaluations.

College of Natural Sciences

Explore the future value of natural sciences, from a basis of industrial-academic cooperation and integrated science

The College of Natural Sciences aims to cultivate core talents in science and technology with broad knowledge to lead the basic sciences. It aims to foster human resources demanded by the knowledge-based society by strengthening student-centered applied science education and field-adaptive education. Composed of 9 departments, 56 professors, and about 1,200 students, the College operates various curricula and programs to develop individuals equipped with expertise, creativity, professionalism, global perspectives, and professional ethics.

Cheonan College of Engineering

The cradle of creative engineering education!
Fostering global talent.
Chungnam-Sejong's representative university!

Cheonan College of Engineering comprises 27 majors across 8 schools and 7 departments, with a faculty of 174 professors and a student body of approximately 5,300. The College is actively promoting initiatives such as the Engineering Education Accreditation Program, Architecture Accreditation Program, BK21 Project, and SW-Oriented University Project. Furthermore, it operates contracted departments offering 8 undergraduate, 3 master's, and 2 doctoral programs.

College of Industrial Sciences

A leader in agricultural and food life-science,
with a 110-year history

The College of Industrial Sciences aims to lead the future agricultural society based on agri-life bio science and technology, and to nurture industrial professionals who will contribute to sustainable social development and balanced regional growth. It is composed of and operates with 15 departments, 75 professors, and about 1,800 students.

College of Nursing and Health

Educating Future-Innovative Health Professionals Leading the Paradigm Shift in Health

The College of Nursing and Health represents national university-level health and medical education in the Chungnam region. Based on the value of respecting life, the College cultivates future healthcare professionals equipped with field-oriented problem-solving competences and innovative capabilities to respond to digital and global environments.

Furthermore, through initiatives such as the Nursing Education Accreditation Program, the Health Information Management Education Accreditation Program, and the HCP-PLUS Talent Scholarship Overseas Training Program, the College systematically ensures the quality of its education and leads the development of healthcare professionals with strong global competence and practical expertise.

School of Division-Free Majors

Cultivating Convergence Talent to
Lead the Advanced Future Society:
Explore Majors and Design Your Own Career Path

The School of Division-free Majors is an open learning community where students can break away from the constraints of fixed majors, freely explore various academic fields, and create their own paths. During the first year after admission, students gain broad, interdisciplinary experiences that cross academic boundaries and select the major best suited to their interests and competitive strengths based on systematic career guidance. Furthermore, beyond the mere acquisition of knowledge, the school helps students learn how to communicate within a community and fosters the inner strength to independently pioneer their own career paths and shape their own futures.

Professional Graduate School

Graduate School of Policy Convergence & Public Affairs | <https://pcpa.kongju.ac.kr>

Graduate School of Policy Convergence and Public Affairs aims to establish a public policy problem-solving talent convergence platform, capable of upgrading national policy and operates a total of five detailed majors in the fields of future growth policy, sustainability policy, inclusive social policy, future education policy, and state administration.

Humanities and Social Sciences

- Future Growth Policy
- Sustainability Policy
- Inclusive Social Policy
- Future Education Policy
- State Administration

Special Graduate School

Graduate School of Education | <https://grad.kongju.ac.kr>

Established in 1980 under the approval of the Ministry of Education, the Graduate School of Education aims to foster professional educators with leadership qualities, able to contribute to national development and operates both a master’s course and a research course with classes during the day and evening.

Humanities and Social Sciences

Graduate School of Business | <https://gbpa.kongju.ac.kr>

The Graduate School of Business aims to cultivate creative and convergent management experts, with a basis of managerial expertise, practicality and skills of analysis. Its major in Business Administration (currently 32 students) is operated as a weekday evening class, with a choice between the Kongju and Cheonan campus.

- Dept. of Business Administration

Graduate School of Social Security | <https://ss.kongju.ac.kr>

The Graduate School of Social Security aims to cultivate highly skilled professionals by strengthening practical expertise, technical proficiency, and policy-making capabilities in public and social safety fields, including social welfare, financial investment, police and legal affairs, disaster and safety management, and aviation safety management.

- Dept. of Social Welfare
- Dept. of Police Law
- Dept. of Disaster and Safety Management
- Dept. of Financial Investment
- Dept. of Aviation Safety Management

Graduate School of Special Education | <https://special.kongju.ac.kr>

Currently operating 6 master’s courses for 70 newly-enrolled students, the school aims to cultivate excellent professional teachers in the field of special education and experts in mediating treatment services for children, by developing their personalities as educators, seeking practical teaching andlearning methods using advanced education techniques to cope with the globalized information society.

- Dept. of Early Childhood Special Education
- Dept. of Elementary Special Education
- Dept. of Secondary Special Education
- Dept. of Vocational Education for Adolescents with Disabilities
- Dept. of Behavioral Psychology & Intervention
- Dept. of Speech Pathology & Therapy

Graduate School of Techno Convergence | <https://techno.kongju.ac.kr>

The Graduate School of Techno Convergence aims to adapt to the rapid development of industrial technology and foster local talents who can play a leading role in this development, with the expertise, management knowledge and international sense necessary for global competition. With the master’s degree course operated in the evenings on weekdays, after obtaining a degree students can enter a general graduate school doctoral course. Established in March 2009 and currently offering 6 master’s degrees, with 180 faculty members in each field and bringing in invited outside instructors, the school provides opportunities for experts or corporate managers in the field of technology to take a new leap forward.

- Dept. of Information Technology Convergence
- Dept. of Mechanical & Automotive Convergence
- Dept. of Architecture Construction
- Dept. of Fusion Chemistry and Environment
- Dept. of Industrial Design & Metal Mould onvergence
- Dept. of Ceramic Integrated Design

Graduate School of Cultural Heritage | <https://heritage.kongju.ac.kr>

The Graduate School of Cultural Heritage aims to establish a differentiated education system and to foster experts able to continuously preserve and utilize the value of cultural heritage, by actively responding to the rapidly changing social environment. Opened in 2012, its master’s degree program is operated mainly on weekday evenings. Currently, we offer one master’s degree program with an enrollment capacity of 30 students.

- Dept. of Cultural Heritage

Through
generous investment
and an innovative
education system,
we nurture smart talent
to lead the AI era.
We promise to maximize
the potential of every
single student and lead
the way toward
a brighter future
